### **Passenger Vehicle and Light Truck Tires from the Socialist Republic of Vietnam:**

#### **Initiation of Countervailing Duty Investigation**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**DATES:** Applicable June 22, 2020.

**FOR FURTHER INFORMATION CONTACT:** Thomas Schauer; AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-0410.

#### **SUPPLEMENTARY INFORMATION:**

##### **The Petition**

On May 13, 2020, the Department of Commerce (Commerce) received a countervailing duty (CVD) petition concerning imports of passenger vehicle and light truck tires (passenger tires) from the Socialist Republic of Vietnam (Vietnam) filed in proper form on behalf of the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO, CLC (the petitioner).<sup>1</sup> The petition was accompanied

<sup>1</sup> See Petitioner's Letter, "Passenger vehicle and light truck tires from the Republic of Korea, Taiwan, Thailand, and the Socialist Republic of Vietnam – Petition for the Imposition of Antidumping and Countervailing Duties," dated May 13, 2020 (the Petition).

by antidumping duty (AD) petitions concerning imports of passenger tires from Vietnam, Republic of Korea, Taiwan, and Thailand.<sup>2</sup>

Between May 18 and June 8, 2020, Commerce requested supplemental information pertaining to certain aspects of the Petition.<sup>3</sup> The petitioner filed responses to these requests on May 20 and June 10, 2020.<sup>4</sup>

On May 21, 2020, Commerce extended the initiation deadline by 20 days to poll the domestic industry in accordance with section 702(c)(4)(D) of the Act, because it was not “clear from the Petitions whether the industry support criteria have been met . . . .”<sup>5</sup>

In accordance with section 702(b)(1) of the Tariff Act of 1930, as amended (the Act), the petitioner alleges that the Government of Vietnam (GOV) is providing countervailable subsidies within the meaning of sections 701 and 771(5) of the Act, and that imports of such products are materially injuring, or threatening material injury to, the passenger tires industry in the United States. Consistent with section 702(b)(1) of the Act and 19 CFR 351.202(b), for those alleged programs on which we are initiating a CVD investigation, the Petition was accompanied by information reasonably available to the petitioner supporting its allegation.

Commerce finds that the petitioner is an interested party, as defined in section 771(9)(D) of the Act. Commerce also finds that the petitioner demonstrated sufficient industry support for the initiation of the requested CVD investigation.<sup>6</sup>

#### Period of Investigation

Because the Petition was filed on May 13, 2020, the period of investigation is January 1, 2019 through December 31, 2019.<sup>7</sup>

#### Scope of the Investigation

The products covered by this investigation are passenger tires from Vietnam. For a full description of the scope of this investigation, *see* the Appendix to this notice.

#### Comments on the Scope of the Investigation

As discussed in the *Preamble* to Commerce's regulations, we are setting aside a period for interested parties to raise issues regarding product coverage (*i.e.*, scope).<sup>8</sup> Commerce will consider all comments received from interested parties and, if necessary, will consult with interested parties prior to the issuance of the preliminary determination. If scope comments include factual information,<sup>9</sup> all such factual information should be limited to public information. To facilitate preparation of its questionnaires, Commerce requests that all interested parties submit such comments by 5:00 p.m. Eastern Time (ET) on July 13, 2020, which is the next business day after 20 calendar days from the signature date of this notice.<sup>10</sup> Any rebuttal

<sup>10</sup> In this case, 20 days after initiation falls on July 12, 2020, a Sunday. Where a deadline falls on a weekend or federal holiday, the appropriate deadline is the next business day. comments, which may include factual information, must be filed by 5:00 p.m. ET on July 23, 2020, which is ten calendar days from the initial comment deadline.<sup>11</sup>

Commerce requests that any factual information parties consider relevant to the scope of the investigation be submitted during this period. However, if a party subsequently finds that additional factual information pertaining to the scope of the investigation may be relevant, the party may contact Commerce and request permission to submit the additional information. All such comments must be filed on the records of the concurrent AD and CVD investigations.

### Filing Requirements

All submissions to Commerce must be filed electronically via Enforcement and Compliance's Antidumping Duty and Countervailing Duty Centralized Electronic Service System (ACCESS), unless an exception applies.<sup>12</sup> An electronically filed document must be received successfully in its entirety by the time and date it is due.

### Consultations

Pursuant to sections 702(b)(4)(A)(i) and (ii) of the Act, Commerce notified representatives of the GOV of the receipt of the Petition and provided it the opportunity for consultations with respect to the Petition.<sup>13</sup> Consultations were held with the GOV on April 27, 2020.<sup>14</sup> The GOV submitted consultation remarks on June 16, 2020.<sup>15</sup>

### Determination of Industry Support for the Petition

Section 702(b)(1) of the Act requires that a petition be filed on behalf of the domestic industry. Section 702(c)(4)(A) of the Act provides that a petition meets this requirement if the domestic producers or workers who support the petition account for: (i) at least 25 percent of the total production of the domestic like product; and (ii) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition. Moreover, section 702(c)(4)(D) of the Act provides that, if the petition does not establish support of domestic producers or workers accounting for more than 50 percent of the total production of the domestic like product, Commerce shall: (i) poll the industry or rely on other information in order to determine if there is support for the petition, as required by subparagraph (A); or (ii) determine industry support using a statistically valid sampling method to poll the “industry.”

Section 771(4)(A) of the Act defines the “industry” as the producers as a whole of a domestic like product. Thus, to determine whether a petition has the requisite industry support, the statute directs Commerce to look to producers and workers who produce the domestic like product. The International Trade Commission (ITC), which is responsible for determining whether “the domestic industry” has been injured, must also determine what constitutes a domestic like product in order to define the industry. While both Commerce and the ITC must apply the same statutory definition regarding the domestic like product,<sup>15</sup> they do so for different purposes and pursuant to a separate and distinct authority. In addition, Commerce’s determination is subject to limitations of time and information. Although this may result in

different definitions of the like product, such differences do not render the decision of either agency contrary to law.<sup>17</sup>

Section 771(10) of the Act defines the domestic like product as “a product which is like, or in the absence of like, most similar in characteristics and uses with, the article subject to an investigation under this title.” Thus, the reference point from which the domestic like product analysis begins is “the article subject to an investigation” (*i.e.*, the class or kind of merchandise to be investigated, which normally will be the scope as defined in the petition).

With regard to the domestic like product, the petitioner does not offer a definition of the domestic like product distinct from the scope of the investigation.<sup>18</sup> Based on our analysis of the information submitted on the record, we have determined that passenger tires, as defined in the scope, constitute a single domestic like product, and we have analyzed industry support in terms of that domestic like product.<sup>19</sup>

On May 21, 2020, Commerce extended the initiation deadline by 20 days to poll the domestic industry in accordance with section 702(c)(4)(D) of the Act, because it was not “clear from the Petitions whether the industry support criteria have been met . . . .”<sup>20</sup>

On May 22, 2020, we issued polling questionnaires to all known producers identified in the Petition, as well as unions, employee organizations, or *ad hoc* groups of workers involved in

the production of passenger tires.<sup>21</sup> We requested that the companies/workers complete the polling questionnaire and certify their responses by the due date specified in the cover letter to the questionnaire.<sup>22</sup>

Our analysis of the data we received in the polling questionnaire responses indicates that the domestic producers and workers who support the Petition account for at least 25 percent of the total production of the domestic like product and more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the Petition.<sup>23</sup> Accordingly, Commerce determines that the industry support requirements of section 702(c)(4)(A) have been met and that the Petition was filed on behalf of the domestic industry within the meaning of section 702(b)(1) of the Act.<sup>24</sup>

### Injury Test

Because Vietnam is a “Subsidies Agreement Country” within the meaning of section 701(b) of the Act, section 701(a)(2) of the Act applies to this investigation. Accordingly, the ITC must determine whether imports of the subject merchandise from Vietnam materially injure, or threaten material injury to, a U.S. industry

### Allegations and Evidence of Material Injury and Causation

The petitioner alleges that the U.S. industry producing the domestic like product is benefitting from countervailable subsidies and that such imports are causing, or threaten to cause, material injury to the U.S. industry producing the domestic like product. In addition, the

<sup>23</sup> *See* Vietnam CVD Initiation Checklist at Attachment II.

<sup>24</sup> *Id.*

petitioner alleges that subject imports exceed the negligibility threshold provided for under section 771(24)(A) of the Act.<sup>25</sup>

The petitioner contends that the industry's injured condition is illustrated by a significant and increasing volume of subject imports; reduced market share; underselling and price depression or suppression; production and shipments lagging behind demand; declines in capacity utilization and employment; and declining financial performance.<sup>26</sup> We assessed the allegations and supporting evidence regarding material injury, threat of material injury, causation, as well as negligibility, and determined that these allegations are properly supported by adequate evidence, and meet the statutory requirements for initiation.<sup>27</sup>

#### Initiation of CVD Investigation

Based upon the examination of the Petition and supplemental responses, we find that they meet the requirements of section 702 of the Act. Therefore, we are initiating a CVD investigation to determine whether imports of passenger tires from Vietnam benefit from countervailable subsidies conferred by the GOV. In accordance with section 703(b)(1) of the Act and 19 CFR 351.205(b)(1), unless postponed, we will make our preliminary determination no later than 65 days after the date of this initiation.

Based on our review of the petition, we find that there is sufficient information to initiate a CVD investigation on all alleged programs. For a full discussion of the basis for our decision to initiate on each program, *see* Vietnam CVD Initiation Checklist. A public version of the initiation checklist for this investigation is available on ACCESS.

## Respondent Selection

In the Petition, the petitioner named 13 companies<sup>28</sup> as producers/exporters of passenger tires. Commerce intends to follow its standard practice in CVD investigations and calculate company-specific subsidy rates for each company. In the event Commerce determines that the number of companies is large and it cannot individually examine each company based upon its resources, where appropriate, Commerce intends to select mandatory respondents based on U.S. Customs and Border Protection (CBP) data for U.S. imports under the appropriate Harmonized Tariff Schedule of the United States numbers listed in the “Scope of the Investigation,” in the appendix to this notice.

On June 16, 2020, Commerce released CBP data on imports of passenger tires from Vietnam under Administrative Protective Order (APO) to all parties with access to information protected by APO and indicated that interested parties wishing to comment on the CBP data or respondent selection must do so within three business days of the publication date of the notice of initiation of this CVD investigation.<sup>29</sup> Comments must be filed electronically using ACCESS. An electronically-filed document must be received successfully in its entirety via ACCESS by 5:00 p.m. ET on the specified deadline. Commerce will not accept rebuttal comments regarding the CBP data or respondent selection.

Interested parties must submit applications for disclosure under APO in accordance with 19 CFR 351.305(b). Instructions for filing such applications may be found on Commerce’s website at <http://enforcement.trade.gov/apo>.

---

<sup>28</sup> See Volume I of the Petition at 14 and Exhibit I-8.

<sup>29</sup> See Memorandum, “Countervailing Duty Investigation of Passenger Tires: Release of Customs Data from U.S. Customs and Border Protection,” dated June 16, 2020.

### Distribution of Copies of the CVD Petition

In accordance with section 702(b)(4)(A)(i) of the Act and 19 CFR 351.202(f), a copy of the public version of the Petition has been provided to the GOV via ACCESS. To the extent practicable, Commerce will attempt to provide a copy of the public version of the Petition to each exporter named in the Petition, as provided under 19 CFR 351.203(c)(2).

### ITC Notification

Commerce will notify the ITC of our initiation, as required by section 702(d) of the Act.

### Preliminary Determination by the ITC

The ITC will preliminarily determine, within 45 days after the date on which the Petition was filed, whether there is a reasonable indication that imports of passenger tires from Vietnam are materially injuring, or threatening material injury to, a U.S. industry. A negative ITC determination will result in the investigation being terminated. Otherwise, this investigation will proceed according to statutory and regulatory time limits.

### Submission of Factual Information

Factual information is defined in 19 CFR 351.102(b)(21) as: (i) evidence submitted in response to questionnaires; (ii) evidence submitted in support of allegations; (iii) publicly available information to value factors under 19 CFR 351.408(c) or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2); (iv) evidence placed on the record by Commerce; and (v) evidence other than factual information described in (i)–(iv). Any party, when submitting factual information, must specify under which subsection of 19 CFR 351.102(b)(21) the information is being submitted<sup>30</sup> and, if the information is submitted to rebut, clarify, or correct factual information already on the record, to provide an explanation identifying the

---

<sup>30</sup> See 19 CFR 351.301(b).

information already on the record that the factual information seeks to rebut, clarify, or correct.<sup>31</sup> Time limits for the submission of factual information are addressed in 19 CFR 351.301, which provides specific time limits based on the type of factual information being submitted. Interested parties should review the regulations prior to submitting factual information in this investigation.

#### Extension of Time Limits

Parties may request an extension of time limits before the expiration of a time limit established under 19 CFR 351.301, or as otherwise specified by Commerce. In general, an extension request will be considered untimely if it is filed after the expiration of the time limit established under 19 CFR 351.301. For submissions that are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. ET on the due date. Under certain circumstances, Commerce may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, Commerce will inform parties in a letter or memorandum of the deadline (including a specified time) by which extension requests must be filed to be considered timely. An extension request must be made in a separate, stand-alone submission; under limited circumstances Commerce will grant untimely-filed requests for the extension of time limits. Parties should review *Extension of Time Limits*, 78 FR 57790 (September 20, 2013), available at <http://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm>, prior to submitting factual information in this investigation.

---

<sup>31</sup> See 19 CFR 351.301(b)(2).

### Certification Requirements

Any party submitting factual information in an AD or CVD proceeding must certify to the accuracy and completeness of that information.<sup>32</sup> Parties must use the certification formats provided in 19 CFR 351.303(g).<sup>33</sup> Commerce intends to reject factual submissions if the submitting party does not comply with the applicable certification requirements.

### Notification to Interested Parties

Interested parties must submit applications for disclosure under APO in accordance with 19 CFR 351.305. Instructions for filing such applications may be found on the Commerce website at <http://enforcement.trade.gov/apo>. Parties wishing to participate in this investigation should ensure that they meet the requirements of 19 CFR 351.103(d) (e.g., by filing a notice of appearance). Note that Commerce has temporarily modified certain portions of its requirements for serving documents containing business proprietary information, until July 17, 2020, unless extended.<sup>34</sup>

## **Appendix**

### **Scope of the Investigation**

The scope of this investigation is passenger vehicle and light truck tires. Passenger vehicle and light truck tires are new pneumatic tires, of rubber, with a passenger vehicle or light truck size designation. Tires covered by this investigation may be tube-type, tubeless, radial, or non-radial, and they may be intended for sale to original equipment manufacturers or the replacement market.

Subject tires have, at the time of importation, the symbol “DOT” on the sidewall, certifying that the tire conforms to applicable motor vehicle safety standards. Subject tires may also have the following prefixes or suffix in their tire size designation, which also appears on the sidewall of the tire:

Prefix designations:

P – Identifies a tire intended primarily for service on passenger cars.

LT – Identifies a tire intended primarily for service on light trucks.

Suffix letter designations:

LT – Identifies light truck tires for service on trucks, buses, trailers, and multipurpose passenger vehicles used in nominal highway service.

All tires with a “P” or “LT” prefix, and all tires with an “LT” suffix in their sidewall markings are covered by this investigation regardless of their intended use.

In addition, all tires that lack a “P” or “LT” prefix or suffix in their sidewall markings, as well as all tires that include any other prefix or suffix in their sidewall markings, are included in the scope, regardless of their intended use, as long as the tire is of a size that fits passenger cars or light trucks. Sizes that fit passenger cars and light trucks include, but are not limited to, the numerical size designations listed in the passenger car section or light truck section of the Tire and Rim Association Year Book, as updated annually. The scope includes all tires that are of a size that fits passenger cars or light trucks, unless the tire falls within one of the specific exclusions set out below.

Passenger vehicle and light truck tires, whether or not attached to wheels or rims, are included in the scope. However, if a subject tire is imported attached to a wheel or rim, only the tire is covered by the scope.

Specifically excluded from the scope are the following types of tires:

(1) Racing car tires; such tires do not bear the symbol “DOT” on the sidewall and may be marked with “ZR” in size designation;

- (2) pneumatic tires, of rubber, that are not new, including recycled and retreaded tires;
- (3) non-pneumatic tires, such as solid rubber tires;
- (4) tires designed and marketed exclusively as temporary use spare tires for passenger vehicles which, in addition, exhibit each of the following physical characteristics:
  - (a) The size designation and load index combination molded on the tire's sidewall are listed in Table PCT-1B ("T" Type Spare Tires for Temporary Use on Passenger Vehicles) or PCT-1B ("T" Type Diagonal (Bias) Spare Tires for Temporary Use on Passenger Vehicles) of the Tire and Rim Association Year Book,
  - (b) the designation "T" is molded into the tire's sidewall as part of the size designation, and,
  - (c) the tire's speed rating is molded on the sidewall, indicating the rated speed in MPH or a letter rating as listed by Tire and Rim Association Year Book, and the rated speed is 81 MPH or a "M" rating;
- (5) tires designed and marketed exclusively for specialty tire (ST) use which, in addition, exhibit each of the following conditions:
  - (a) The size designation molded on the tire's sidewall is listed in the ST sections of the Tire and Rim Association Year Book,
  - (b) the designation "ST" is molded into the tire's sidewall as part of the size designation,
  - (c) the tire incorporates a warning, prominently molded on the sidewall, that the tire is "For Trailer Service Only" or "For Trailer Use Only",
  - (d) the load index molded on the tire's sidewall meets or exceeds those load indexes listed in the Tire and Rim Association Year Book for the relevant ST tire size, and
  - (e) either
    - (i) the tire's speed rating is molded on the sidewall, indicating the rated speed in MPH or a letter rating as listed by Tire and Rim Association Year Book, and the rated speed does not exceed 81 MPH or an "M" rating; or
    - (ii) the tire's speed rating molded on the sidewall is 87 MPH or an "N" rating, and in either case the tire's maximum pressure and maximum load limit are molded on the sidewall and either
      - (1) both exceed the maximum pressure and maximum load limit for any tire of the same size designation in either the passenger car or light truck section of the Tire and Rim Association Year Book; or

(2) if the maximum cold inflation pressure molded on the tire is less than any cold inflation pressure listed for that size designation in either the passenger car or light truck section of the Tire and Rim Association Year Book, the maximum load limit molded on the tire is higher than the maximum load limit listed at that cold inflation pressure for that size designation in either the passenger car or light truck section of the Tire and Rim Association Year Book;

(6) tires designed and marketed exclusively for off-road use and which, in addition, exhibit each of the following physical characteristics:

(a) The size designation and load index combination molded on the tire's sidewall are listed in the off-the-road, agricultural, industrial or ATV section of the Tire and Rim Association Year Book,

(b) in addition to any size designation markings, the tire incorporates a warning, prominently molded on the sidewall, that the tire is "Not For Highway Service" or "Not for Highway Use",

(c) the tire's speed rating is molded on the sidewall, indicating the rated speed in MPH or a letter rating as listed by the Tire and Rim Association Year Book, and the rated speed does not exceed 55 MPH or a "G" rating, and

(d) the tire features a recognizable off-road tread design.

The products covered by this investigation are currently classified under the following Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 4011.10.10.10, 4011.10.10.20, 4011.10.10.30, 4011.10.10.40, 4011.10.10.50, 4011.10.10.60, 4011.10.10.70, 4011.10.50.00, 4011.20.10.05, and 4011.20.50.10. Tires meeting the scope description may also enter under the following HTSUS subheadings: 4011.90.10.10, 4011.90.10.50, 4011.90.20.10, 4011.90.20.50, 4011.90.80.10, 4011.90.80.50, 8708.70.45.30, 8708.70.45.46, 8708.70.45.48, 8708.70.45.60, 8708.70.60.30, 8708.70.60.45, and 8708.70.60.60. While HTSUS subheadings are provided for convenience and for customs purposes, the written description of the subject merchandise is dispositive.
